

County Data Summaries

The following section highlights each county in Virginia. Included are the major crops and livestock species published for Virginia, along with the rank among all counties in the state. It is important to note that county data are not published for counties where individual operations may be disclosed or in counties with numbers too small to estimate.

Data published in this section are available elsewhere in this bulletin. Also, included with each county highlight table are the most recent agricultural census county data (2002) for the number of farms, total acres in farms and harvested cropland. Census cash receipts are shown for crops, and livestock and total cash receipts with rank in the state.

Top Ten Counties

In Farm Income

1. Rockingham
